# GERMAN WOMEN MAKE APPEAL TO MRS. WILSON

Sent From Wireless Station Telling of  
Conditions—Want Armistice Changed

(By Associated Press)

Washington, Nov. 14.—Appeals addressed to Mrs. Woodrow Wilson and Miss Jane Adams of Chicago, in behalf of the women of Germany, asking that the armistice terms be modified to prevent不可避免的 disaster, went out by the wireless plant at Nauheim and picked up by the radio station at Houlton, Me.

The appeal to Mrs. Wilson is that the women and children of Germany have been starving for years and that they

will die by great numbers from hunger unless the armistice rules are changed so that there may be sufficient rolling stock to bring food into the country and transport it about. This was signed by Grace Baumer and Alice Sollman of the National Council of German women.

The appeal to Miss Adams was from Rita Augsberg of Poz, who said that the German women forced the entire banishment of the nation unless the armistice terms are changed to allow the free movement of supplies.

## A Questionable Proposition.

It is being suggested that November 11 be made a national or even an international, holiday, commemorating the close of the world war that has just come to an end, and that Thanksgiving be merged with it, as otherwise the two holidays would come too near together for comfort.

But this is a proposition that should be given very serious consideration before any action is taken. Just at this time the world is excited and enthusiastic over the ending of the war. Great celebrations have been held in all parts of this country and in Europe, as was eminently proper, and it is quite possible that the celebration may become an annual event. But to merge Thanksgiving with any celebration resembling those that have just been held would be little less than sacrilege.

It is not necessary to review the origin of Thanksgiving and the manner in which it has always been observed. It is a solemn, yet joyful feast of thanksgiving to Almighty God for the blessing of plenty. The people of this country are familiar with the conditions and circumstances under which it was instituted, and have observed it to this day in the same spirit as did the pioneers in the New England wilderness more than a century ago.

The celebration of the anniversary of the close of the war for world freedom will naturally and properly be of a very different character from that of Thanksgiving. It will be much more like that of the Fourth of July, and if there is to be any merging of holidays it would be better—for this country at least—to carry this celebration over the Fourth than to keep it in November and practically eliminate Thanksgiving by annexing it thereto. Those who favor this step tell us that Thanksgiving is a "movable feast" because the original date was once changed by the early settlers. But there has been no change since that long-distant day, and there should be none now. If there should be any "moving" of a holiday, let Victory Day, or whatever it may be called, be moved to the Fourth of July, when two victory days can be celebrated at the same time in a manner befitting the sternest of war memories.

There is a sacredness to Thanksgiving Day that should protect it against interference of any character whatsoever. It is the day, above all days, for family reunions and the sober contemplation of material and spiritual blessings, and to set it aside, as would practically be done by the step proposed, would be a grievous national mistake.

The celebration of Victory Day, if such is to become an annual event, will be similar to those the country has just witnessed, and to merge Thanksgiving with anything of that American calendar nothing but a memory.

It ought never to be done.

The business men and farmers are on the right track when they set out to boom the state, and particularly Portsmouth harbor, which is known far and wide as one of the best on the Atlantic coast. This port is deserving of the attention not only of the people of the state, but of the federal government, and should be developed to its full capacity.

The first public appearance of President Wilson after the receipt of the joyful news from across the water was when he appeared on the portico of the White House in response to serenades by the War Trade Board employees and the Fuel Administration employees and others and acknowledged the honor due him.

When Emperor William and his party reached Holland they might appropriately have sung the old song:

True patriots are we,  
And be it understood  
We left our country  
For our country's good.

Maine produces apples as well as potatoes and has already shipped 445,000 barrels, which is 30,000 more than were sent out last year. And encouraging reports have come from other sections of the country. There will be apples for the long, cold evenings that are coming.

A man was before a Boston court the other day charged with spitting on the flag, and when asked by the justice why he did it he replied: "Well, I did it and that's all there is to it." But it wasn't. He got a year in the house of correction.

Both parties in this state placed good men at the front in the recent election, and it is to be hoped the same thing will be done in the coming municipal contest. And the indications are that it will be.

## HELP BOOST UNITED WAR WORK FUND

Last evening \$8,322.00 of Portsmouth's quota of \$25,000.00 had been reported. Many of the large contributors are still to be heard from.

Mr. Randall, Chairman of the Campaign, made this statement regarding the present situation: "There is every indication that the industrial plants and the residential district will more than do their share. The business district, however, is lagging far behind its quota.

I do not believe that the business men of Portsmouth are going to let this campaign fail in reaching its goal through any fault of theirs. This campaign must succeed. Portsmouth represents about as strongly as any other community just what the men "over there" have been fighting for. It represents, all that is best in American life. Through the work of the organization that this campaign will support, we will bring our own fellow citizens across the ocean and in distant camps and garrisons in this country, in touch with just this kind of influence, and keep them in touch with it until they are among us once more.

The spirit of Portsmouth is right. This has been demonstrated repeatedly in movements of this sort in the past, and I believe that it is going to be demonstrated in this one."

At the Gale Shoe Factory all the employees have pledged one day's pay. The campaign at the Morley Button Factory has reached its quota of \$750 and is still going. Yesterday there was a band concert and rally at the Atlantic Corporation. The men responded splendidly to Mr. Downton's appeal for support of the campaign. When he called on those who were willing to support the movement, to raise their hands, every hand went up. A large number of pledge cards have been reported, signed at the L. H. Shattuck Company.

These figures are not included in the total indicated above.

The work of canvassing the residential districts has been carried on entirely by women's teams, and they have been about one hundred workers actively engaged. The quota that was given them to reach was \$4,000. They have already raised \$2880.00 and at last reports were still bringing in subscriptions steadily.

Tables have been placed in the lobbies of the Olympia and Colonial theatres, with young ladies in charge. Contributions may be made here also.

## K. OF C. MAKES AN APPEAL FOR MORE BOOKS

New York cases have been placed in the Knights of Columbus Home on Islington street and the public is asked to aid in making a collection of books to place on the shelves that the enlisted men, especially, may have the opportunity to read and enjoy the collection. Have you a spare bound book which an enlisted man would enjoy reading? War Work Secretary Gosnell of the Knights of Columbus would much appreciate the favor if you would leave it at the Home on Islington street.

## SEC. BAKER TO GEN. PERSHING

## TRAINING LITTLE CHILDREN

All Living Things Appeal to the Vitality of the Child—Show Him That the Little Plant Is Doing Something—It Pushes Its Roots Down and Its Stem Up; It Eats and Drinks, Breathes, Sleeps and Wakes.

Suggestions by mothers who have been kindergarteners. Issued by the United States Bureau of Education, Washington, D. C., and the National Kindergarten Association, 8 West Fortieth Street, New York.

By MRS. BERTHA LEWIS.

We are all aware that for some years past there has been an ever-increasing demand among educators for a better understanding of things from the things themselves by actual experience, instead of merely through book knowledge.

Songs and stories about nature, for instance, though they are very necessary and a very beautiful part of work with children, are not nature-study, but merely a means of emphasizing the things which have been observed by the child, and of adding him to express his thoughts of these things in simple, beautiful language, motion and rhythm. Each new song or story about the object under observation is the opening of a new door into the world of nature and should lead to fresh observations.

There is nothing more dead to a child than preserved specimens. Nature-study deals with life, and life appeals to the vitality in the child. If a specimen is used, be sure it is a live one or a good picture (the preserved specimen should be the result of the lesson, not the basis of it).

We live in a world of living nature. What do we know of the grass under our feet, the trees of forest and plain, the insects whose apartment houses fill the dead twigs, the birds which nest in the woods and fill the world with music, the stars overhead, clouds, rain, hail, wind, mist, dew or the sun which shines over all? The study of nature has to do with living things—or things that are doing something. The stars are twinkling and sparkling light. The snowflakes are falling, making patterns and bringing us messages from fairyland.

The birds are hopping, flying, singing.

## NAVY YARD NEWS

## To Run on the Yard

A plan is under way which will be a great accommodation to the employees and a time saver to the government. New tracks are being laid on which the trains carrying the employees will arrive and depart from the yard direct thus doing away with the arrangement of passengers getting on and off trains outside the reservation.

A system of identification will likely be established in Portsmouth for those who take the train in the morning.

## Injured by a Fall.

Geo. H. Walton, a general helper in the supply department, sustained a dislocation of the left shoulder today as the result of a fall in building 35. He is now confined to a ward in the yard dispensary.

## Train for the Women

Under the new arrangement of train service the women employed at the yard have a train by themselves leaving the station at close of work and depart fifteen minutes earlier than the second train carrying the men. In order to do this the women take 45 minutes for dinner instead of an hour and finish their days work at 6:15 p. m.

## Calling for Outside Talent

The management of the navy yard ministerial show to be given for the Red Cross on Dec. 11-12 today opened the show to talent outside the yard and are making an appeal to anybody working at the shipyards to step in and assist them. The affair is for a good cause and singers or people who can assist in any way would be welcome to start in at the rehearsal on next Monday night. The Safety Committee of the yard will gladly furnish any information needed regarding the affair.

## New Train Schedule

A new train schedule for navy yard workmen under the 8 hour basis will likely be issued on Wednesday next. It will effect the round running from Rochester, Newburyport, York Beach and Dover.

## Will Go In Dry Dock.

The wooden ship Bacchus of the Emergency Fleet, the Mohay and the Portland Lightship No. 14 will be placed in the dry dock on Saturday for minor repairs.

## Students Can Resign

Sec. Daniels announced on Thursday that men who left college to enter the naval service and who now desired to resume their college courses, would be permitted to resign from the service. Such men, he said, should make application to their commanding officers.

## For Repairs.

The U. S. S. Delaware arrived at the Charlestown yard on Thursday for 30 days' repairing in the drydock.

## Doubled Its Output

During the war the ropewalk at Charlestown navy yard turned out more than double its output over the year previous. Even at times this was not sufficient to supply the ships of

MEMORIAL SERVICES FOR CAPT. WETZEL

A class of four candidates was initiated at the meeting of Strawberry Bank range last evening. Another class will be initiated in the near future. E. Curtis Matthews gave a talk on the necessity of every one doing his part for the United War Work drive.

The services were conducted by Rev. Dr. William H. van Allen and consisted of an organ prelude by Francis W. Snow, organist; hymns, patriotic prayers, anthem and benediction. Among those who attended were Chicago relatives of Capt. Wetzel.

## The Joy of Giving

The United War Work Campaign is an American Campaign conducted by Americans for Americans. How better can the stay-at-homes reward loyalty and duty well done, offer solace to anxious mothers, make their patriotism count. The United war workers offer for your contributions the saving of life, the providing of comforts, the preservation of manhood, an opportunity to stand shoulder to shoulder with your brothers "over there."

The men you are asked to help save the world from autocracy. Your dollars are a tribute to their bravery. No real man can be a shirker, no real American will be. It will be months before the European situation is cleared up. Your millions will help in thousands of ways until the boys come marching home again.

Give for humanity and country. Give for home and parents. Give for valor. Give for the glory of it all.

## ATLANTIC NEWS

It is not far from the truth to say that the ship building here will be the finest and most complete up to the perfect construction of any hull in America.

Orders have been received to do away with gun crew quarters on ships building here, also gun mount, etc.

Many new men are joining the forces each day.

The indications are that the U. S. Guards will not long be with us.

The first ship to be launched will be "Hiblade," the "Kinney" and she is scheduled to take her maiden dip this evening. This will be the first steel ship ever launched in New Hampshire.

## ARNOL-COLE WEDDING AT KITTERY CHURCH

Miss Sadie Agnes Cole of Elliot and Sergeant David Allison Arnol, U. S. A., were united in marriage last evening at the Christian Church in Kittery, the pastor, Rev. Carl Nichols, officiating.

The bride wore a dainty gown of blue material with trimmings of white satin and hat of white fur trimmed with white fur. She was attended by her sister, Miss Hazel B. Cole who wore a gown of dark blue and hat to match. Miss Dixie Cole, the sister of the bride, acted as flower girl and wore a dainty gown of white muslin. The best man was Frank Moore of Kittery, a brother-in-law of the bride.

The ceremony was attended by the relatives and a few near friends of the contracting parties and at its conclusion the bridal couple left for Elliot where they will make their home.

The bride is the daughter of Mrs. W. E. Cole of Elliot and is well and favorably known in her home town.

The groom, whose home was in the south, has been a member of the Marine Corps for six years and stationed at this navy yard. He is held in much esteem by his hosts of friends.

That the future of the couple may be a happy one is the wish of all their acquaintances.

## AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked, or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## EXETER

Exeter, Nov. 15.—The second hearing before the public service commission regarding the proposed discontinuance of the Exeter, Hampton and Amesbury street railway will be held at the town hall Tuesday, Nov. 13. At this hearing the company's side of the case will be heard, the previous session having been given to arguments by the public, showing why the road should be discontinued.

This matter is of importance to residents of Exeter and vicinity, especially Hampton, Hampton Falls and Seabrook. To the last named town the road is said to be of special use in transporting workmen back and forth from Newburyport, who are engaged in government work, and it is argued by Hampton citizens that its passing means loss to Hampton Beach.

Mrs. Mary F. Hunker, wife of Chief of Police Elvyn A. Hunker, was appointed district deputy of district No. 16 of the Daughters of Rebekah at the meeting of the grand lodge at Manchester Wednesday.

A victory and peace meeting will be held in the academy chapel Sunday evening, which will be addressed by Isaac J. Lansing of New York. The speaker is to be Isaac J. Lansing of New York.

Frederick Woodman, in an ambulance corps at the front in France, drew a package of cigarettes sent by tobacco firm subscribers from all over the United States and found in it the name of Miss Prudence Robinson of Langor. The Woodman and Robinson families are close friends and are related by marriage.

Huns to Wear Bark Shoes.

To help out in the present great scarcity of leather and the consequent dearth of footgear, a German army authority recommends the introduction of Linden bark moccasins such as are worn by the Russian peasants. Made from the bark of young twigs, these shoes are said to stand two years' wear; yet they are light and easy and can be made to fit well. The Linden forests of the prince of Monaco, near Laon, France, Germans say, would supply sufficient bark to make 1,000,000 shoes, and the making of them would furnish excellent light occupation for prisoners and slightly wounded.

## CALLED FOR QUICK THINKING

Skipper of Burning Ship, With Cargo of High Explosives, in No Position to Headache.

The Cephalonia was deeply loaded with shells, and her chill-rooms were filled with T. N. T. for the Italian army, writes R. E. Cropley in the Atlantic. She was well in the midst of the convoy proceeding down the Thames, and had just passed beyond the submarine net, when a thin pencil of smoke was seen to rise from the corner of No. 1 hatch. It happened to catch the third officer's eye first, and he called Sammey's attention to it. In two shakes Sammey had sounded four blasts on the siren, and a flag fluttered from the yard-arm, which caused all other ships to give him a wide berth, as the propeller of the Cephalonia churned up the sea in her frantic effort to back and turn as if to return to London. A ship on fire should return to port, but Sammey, with a cargo of T. N. T. wasn't the kind of a skipper to risk blowing cottages and kiddies into the next world in an effort to save his own skin. No; he turned the Cephalonia till her stern was head to the breeze, and slowly kept her backing seaward to restrain the fire, if possible, from spreading astern to his chambers of T. N. T.; backed her away from port and other ships, so that, if she did blow up, the military loss would be confined to the Cephalonia alone. And all the while he was wondering what moment a U-boat would pop up and send a torpedo into him, or he would strike a drifting mine.

## DUBLIN BOOTBLACKS IN 1780

Polish Used at That Time Was a Combination of Lambblack and Rotten Eggs.

Among the populace of Dublin in 1780 the shoeblocks were a numerous and formidable body. The polish they used was lambblack and eggs, for which they purchased all that were rotten in the markets. Their implements consisted of a three-legged stool, a basket containing a blunt knife, called a spudd, a painter's brush and an old wig.

A gentleman usually went out in the morning with dirty boots or shoes, sure to find a shoeblock sitting on his stool at the corner of the street. The gentleman put his foot in the lap of the shoeblock without ceremony, and the artist scraped it with his spudd, wiped it with his wig and then laid on his composition as thick as black paint with his painter's brush.

The state dried with a rich polish, requiring no friction, was little inferior to the elaborated modern fluids, save only the intolerable odors exhaled from eggs in a high state of putrefaction, which filled any house which was entered before the composition was quite dry, and sometimes even tainted the air of fashionable drawing rooms.

## Playing Duckboard.

Do you know what duckboard is? It's a kind of a game first played in a primitive and wild sort of fashion by Rocky mountain goats and since modernized and made difficult by the American army. The apparatus on which one plays duckboard is a mixed breed contrivance, by Washboard, out of Corduroy Road, to use the ruling vernacular. It is made up of narrow, slippery strips of rounded wood laid crosswise about two inches apart, and is supposed to keep one's feet out of the mud. It does! While playing duckboard one's feet are usually in the air. It is called duckboard, I suppose, because of some silly belief that a duck could walk it without falling. Even airplanes flying at a height of less than 5,000 feet have been seen to wiggle and dip, drunkenly, while passing above French lines, loaded with duckboards. And when it is laid upon the surface of the earth, and there are no handy French walls to hold it up, it's lucky for Charley Chaplin that the wide world didn't see me operate. Nothing could ever again be funny to a man who saw me play duckboard out there in the comparative open of that wood—William Stevens McNutt, in Collier's Weekly.

Soldier's Appreciation.

Recently a woman well known in America, who has devoted all her time to relief work since the war began, was visiting a hospital. The commanding officer had sent a military car for her. She entered the car just as an ambulance filled with wounded passed by. As she noticed the thin, pale faces, tears came into her eyes. The soldier-chaplain asked if she was ill.

"No," she said, "these are tears of gratitude and pride."

"Madame," replied the boy, simply, "if I thought that my being a soldier was worthy of but one of your tears, I should feel that I had not lived in vain." Red Cross Magazine.

**CO-OPERATION  
BETWEEN ALLIES**

Measures to Promote Close Agricultural Interests Under Consideration.

Washington, Nov. 11.—Measures to promote close agricultural co-operation between the United States, England, France, Italy and Belgium during the peace reconstruction era, are under consideration by the governments of these nations. It was said today that to work out effective plans, an international congress of agricultural leaders, including both belligerents and neutral nations, may be held simultaneously with the peace conference.

The general idea under discussion contemplates assigning to each country or geographical district the task of specializing in a particular kind of food production it can do best and to eliminate the theory that each nation should be self-sufficient for production of all the food or other agricultural materials it needs. This would be similar to the international pooling of industrial facilities and raw material supply.

Regardless of the success of this proposed plan, it is certain that tremendous assistance will be needed from the United States immediately for reconstruction of Belgium and northern France. Through the removal of industrial restrictions on manufacture of agricultural machinery and tractors now ordered by the war industries board, the government plans to stimulate the production of these articles for export to Europe.

Quantities of machinery for sugar mills, flour mills, canning factories and other food product plants also will be required from the United States, and it is probable that the allied governments will undertake to regulate the distribution of this equipment in Europe as well as the interchange and replenishment of livestock and seed supplies in the war-disturbed countries.

President Wilson, Food Administrator Hoover and Secretary Houston now have these questions under discussion.

**An Inside Bath  
Makes You Look  
and Feel Fresh**

Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowel do.

Men and women are urged to drink each morning before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, soot bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath coated tongue, nasty taste or have a dull, aching head, yellow complexion, acid stomach; others who are subject to bilious attacks or constipation should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

**WAS GUEST  
OF THE ELKS**

Governor-elect John H. Bartlett was the guest of the Portsmouth Lodge of Elks at their regular meeting on Thursday evening and after the regular order of business, a fine supper was served, and Col. Bartlett gave an informal talk.

**SEND IN CLEAR PICTURES**

Send in the best picture you can get of your soldier or sailor lad for the Herald's daily picture gallery. The best picture will make the best cut, but a few have been sent in that are not clear and others rather small and such, of course, do not show up in the paper as well as cuts made from better photographs or even snap shots. They will be returned after used to the owners. Send in the best and clearest pictures. Pictures and sketches will be run daily of those in the service from Portsmouth or adjoining towns.

**IF KIDNEYS AND  
BLADDER BOther**

Take Salts to flush Kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid, irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

**MACKENSEN'S

REVOLUTION**

(By Associated Press)  
London, Nov. 16.—Most of the forces under Field Marshal Von Mackensen have joined the revolution according to a Copehagen dispatch to the Exchange Telegraph Co. The Berlin soldiers and workers' councils have decided to dissolve the Red Guard. Capt. Von Beerenfeld, leader of the guard, has been dismissed for making revolutionary plans.

**REVOCATION OF  
STRIKE ORDER  
REPORTED**

(By Associated Press)  
Washington, Nov. 16.—Unconditional revocation of the general strike order in Switzerland by the Socialistic committee was reported today in an official message to the Swiss Minister Sulzer here.

Men and women are urged to drink each morning before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, soot bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

# MORE GENEROUS RESPONSE NECESSARY

## War Drive Not Up to Estimate—Too Many Small Donations—Two Gifts of \$1,000 Received

The fourth day of the United War Drive in this city for its quota of \$25,500 showed the largest receipts of the week. This was due to the fact that the teams began their canvass of the city on Thursday. The women on all the residential streets and the men in the business districts, and there was considerable work done.

The teams report that there is no generosity giving by some of the merchants as could be expected. In many cases clerks are giving as much as the proprietors. This should not be so, for there is not a merchant in this city but has had a wonderful increase in business since the war began, and they can well afford to be far more generous than they have shown at present. The clerks have made a fine response, at least a half day's pay, and many a whole day's pay. The slogan is "Give," but a dollar or even \$6 from a retail merchant is now following the slogan unless it be spelled "give."

This is true of the big plants where the drive is well organized and underway, but it will be Saturday night before the full report will be available from either of the ship yards or the local manufacturing plants. The Navy

Yard has started rather slowly, but they are expected to make their usual strong finish and to be well over their quota by Saturday night.

There has been two gifts of \$1,000 each from Rev. J. H. Thayer and Mrs. Thayer, as usual their generosity setting the high mark for the city.
